

PERFORMANCE MARKETING PROPOSAL

Filling KSFE branches with **measurable** enquiries.

Prepared for KSFE branch network and Regional Offices, Thiruvananthapuram. Built on results Dezmos has already delivered for live KSFE branches.

2 KSFE branches already served

7 campaigns run

Sep 2024 – Feb 2026

KSFE has the strongest trust position in Kerala – and the quietest digital presence.

1

Competitors own the intent moment

When someone searches or scrolls for a chitty or a monthly savings plan, the ads they see are private operators and gold-loan NBFCs. They already trust KSFE – they are simply not being shown it at the moment they act.

2

Every branch is a distinct market

A Technopark-catchment branch and a handloom-town branch do not share an audience. Radius targeting lets each branch run its own campaign, in Malayalam, against its own catchment – at branch-scale budgets.

3

Enquiries can be counted

Print and hoardings cannot tell you what one enquiry cost. A WhatsApp campaign can – down to the rupee, per branch, per month. That is the whole basis of this proposal.

We are not proposing this from theory. We already run ads for KSFE branches.

Seven campaigns for the **KSFE Pettah** and **KSFE Kollayad** branches, from September 2024 to February 2026. Every figure on the next pages is pulled directly from Meta Ads Manager — none of it is modelled or illustrative.

₹13,659

Managed ad spend for KSFE branches

443,357

People reached across Kerala

149

WhatsApp enquiries delivered to branches

₹73

Blended cost per WhatsApp enquiry

₹73 per enquiry is the blended average across the whole learning period, including our first campaigns. The most recent campaign — KSFE Kollayad, January 2026 — delivered **66 enquiries at ₹38.52 each**. That is the number a new branch should expect to work toward.

Every KSFE campaign we have run.

CAMPAIGN	TYPE	SPEND	IMPRESSIONS	REACH	CLICKS	CTR	RESULT	COST / RESULT
KSFE Awareness ad —	Awareness	₹1,450	115,123	88,698	231	0.20%	88,698	₹16.35
ksfe pettah campaign PETTAH	Awareness	₹1,379	582,650	277,033	266	0.05%	277,033	₹4.98
KSFE Pettah WA Tailored PETTAH	WhatsApp	₹2,758	33,522	15,489	780	2.33%	23	₹119.92
KSFE Kolayad WA 17/06 KOLAYAD	WhatsApp	₹2,327	63,104	23,876	743	1.18%	24	₹96.94
KSFE Kolayad WA 26/07 KOLAYAD	WhatsApp	₹2,542	30,752	11,807	387	1.26%	21	₹121.06
KSFE Kolayad WA 25/10 KOLAYAD	WhatsApp	₹660	4,163	2,401	65	1.56%	15	₹44.02
KSFE Kollayad 24/01 KOLAYAD	WhatsApp	₹2,542	63,519	24,053	576	0.91%	66	₹38.52
Total — 7 campaigns		₹13,659	892,833	443,357	3,048	—	149 enquiries	₹72.68

Awareness campaigns are optimised for reach, so cost is per 1,000 reached. WhatsApp campaigns are optimised for conversations started, so the result is enquiries.

Same branch — cost per enquiry cut by two thirds.

Cost per WhatsApp enquiry · KSFE Kolayad branch

-68%

Cost per WhatsApp enquiry at KSFE Kolayad, from the July 2025 peak of ₹121.06 to ₹38.52 in January 2026.

The first campaigns bought learning. Once creative, audience and placement were tuned against real branch data, the January 2026 campaign delivered **66 enquiries — more than the previous three campaigns combined**, at the lowest cost per enquiry of the entire run — the compounding a retained engagement produces and a one-off campaign cannot.

When the goal is visibility, the numbers get very cheap.

277,033

₹2.37

Cost per 1,000 impressions — Pettah awareness campaign

2.33%

Best click-through rate — KSFE Pettah WhatsApp campaign

What that means at branch scale

A single branch running an awareness campaign at Pettah's efficiency reaches a quarter of a million people in its district for less than the cost of one newspaper insertion — and unlike the insertion, it reports exactly who saw it, where, and on what device.

And where the enquiries come from

Awareness builds the pool; the WhatsApp campaigns convert it. Run together, the awareness audience becomes the retargeting pool for the enquiry campaign — which is precisely why the Kolayad cost per enquiry fell as the account matured.

A repeatable four-step cycle, per branch.

1

Catchment mapping

Radius and interest targeting built around the individual branch – its pincodes, its commuter flows, its subscriber profile.

2

Malayalam-first creative

Static and video creative in Malayalam and English, written for chitty products and cleared against advertising norms before it runs.

3

WhatsApp enquiry capture

Every click lands in a WhatsApp conversation routed to the branch, so staff receive a named enquiry rather than an anonymous impression.

4

Monthly optimisation

Creative and audience refreshed against live cost-per-enquiry data – the mechanism behind the 68% reduction at Kolayad.

Compliance is built in. All creative avoids implied or guaranteed-return messaging, in line with the Chit Funds Act 1982 and ASCI codes on financial advertising. Copy is submitted for branch or Regional Office approval before any spend is released.

Two packages. Both reported on cost per enquiry.

Basic

Single branch · steady enquiry flow

₹15,000

per month + ad spend

- 1 branch, 1 catchment
- 2 campaigns live — awareness + WhatsApp enquiry
- 4 creatives per month, Malayalam and English
- WhatsApp enquiry routing to the branch
- Monthly performance report — spend, reach, enquiries, cost per enquiry
- Compliance pre-check on all copy
- Recommended ad budget: ₹5,000–8,000 per month

RECOMMENDED

Premium

Multi-branch or Regional Office

₹35,000

per month + ad spend

- Up to 6 branches, each with its own catchment and creative
- Always-on awareness + WhatsApp enquiry + retargeting
- 12 creatives per month, including video
- Pravasi Chitty campaigns targeted at Gulf geographies
- Offline attribution — ad click through to branch walk-in
- Branch-by-branch dashboard, reviewed fortnightly
- Dedicated account manager + quarterly review at the Regional Office
- Recommended ad budget: ₹30,000–50,000 per month

Retainers exclude GST and media spend, which is billed at cost directly to the platform. Pricing is indicative for a 90-day pilot and can be restructured to suit tender or GeM procurement requirements.

Built for how KSFE actually procures.

What we bring

- An existing, verifiable record with two KSFE branches
- All reporting exported directly from Meta Ads Manager – auditable, not agency-generated
- Creative approval workflow with the branch or Regional Office before any spend
- Media billed at cost, with platform invoices attached
- Malayalam-language creative produced in-house

What we would ask of KSFE

- A nominated point of contact at branch or Regional Office level
- Access to the branch WhatsApp number for enquiry routing
- Approval on creative and claims before publication
- Guidance on the correct procurement route – direct engagement, tender, or GeM – which we will follow as specified

We are happy to begin with a single-branch pilot at Basic scope so performance can be judged on evidence before any wider commitment.

DEZMOS DIGITALMARKETING

NEXT STEP

Let us run one branch for 90 days and report the **cost per enquiry**.

A free digital audit of your branch catchment

No cost and no obligation — competitor ad activity in your catchment, search demand for chitty products, and a projected cost per enquiry based on our live KSFE campaign data.
